## Vision to Provide Safe and Smooth Vertical Travel Experience

**Reliable Lifts** elevated itself since 2009 with the vision to provide safe and smooth vertical travel experience. Our lifts are robust and with proper maintenance, built to last. Reliable Lifts is an organization that believes constant improvement is necessary to satisfy our customers, employees and stake holders. Since our inception, Reliable Lifts has been constantly updating every category of lift products and related services. **Reliable Lifts are currently moving more than 30,000 people safely every day under every category of our products.**

**USP** of Reliable lift is that we can execute any kind of complex requirement in any segment of Elevator.

**Both our Directors have more than 20 years of rich experience in the field of Elevators.**

We deliver on time without compromising quality and we offer 24 X 7 service backup for regular maintenance service for our products. We have dedicated team of experts in electronics and mechanical engineering. Reliable Lifts is committed to be indispensable and the matchless solution for environmental testing. We remain hyper-sensitive to the latest updates for acute projection and continuously improve our professional knowledge and skills.

### Our Vision

We aspire to be the most preferred company for all customers by the experience of our unique, creative and sustainable products and trust worthy services.

### Our Mission

The mission of the Reliable Lifts focuses on innovation, positive experiences and corporate responsibility, the sum of which, the company believes, will create "customer delight."

# Hydraulic Home Lift

The only lift in the market with machine room less option. Hydraulic lifts are compact lifts for 2 to 6 passenger. Unlike traditional geared and counterweight operated elevator, Hydraulic lift does not required additional space for machine room, overhead and pit, making it more suitable for domestic, commercial and private use. Often maintenance cost is also lower than more conventional lifts. It is perfect solution for bungalows, villas, duplex and row houses upto 4-5 storeys.

## Advantages and Features :

- ▶ **Custom design to meet your needs :** 100% customized solution, we tailor each lift to suit each different shaft
- ▶ **Reduced Pit and Headroom :** Hydraulic lift doesn't need to have a deep pit and the overhead. Our lifts can be adapted to existing building according to the reduced pit and overhead standard.
- ▶ **Low Energy Consumption :** It reduces consumption by 50% in comparison with other conventional lifts.
- ▶ **Adaptability :** Easy to control & maintenance.
- ▶ **Cabinets :** Wide range of aesthetic finishes for cabins as well as doors.
- ▶ **Safety :** Automatic rescue device system with a pressure relief valve, always active during the decent even in case of motor failure.
- ▶ **Environmentally Friendly :** Eco fluids with better environmentally friendly properties can be used.

## Eco

One of the initial basic model of Reliable with Manual Doors options with MS Powder Coated Cabin. For External Lift MS Fabricated structure are used with standard options for Aluminum Composite Panel with regular ACP at three side for exterior enclosure.

## Classy

Classy, the upgraded version of Eco model comes up with wide range of MS Powder Coating shades for cabin interior & Doors. This model comes with Fully Automatic door operation. For outdoor Lift the exterior can be enclosed with classy shades of Aluminum Composite Panel or Glass or a combination of ACP & Glass to match the Surroundings.

## Magna

Magna model is a combination of customized SSHL with designer Etching sheets or a plain hairline cabin as per your requirement with fully Automatic Doors. Doors options with adequate vision and big vision both are available. For External Lift the exterior can be enclosed with premium shades of Aluminum Composite Panel or toughened Glass or a combination of ACP & Glass to match the Surroundings. It could also be enclosed with premium option such as Shera Board or Cement Sheet with digital designs.

## Superb

Superb is the model with customized glass work and the designer etching sheet work for cabin & doors. This sheet metal structure is enclosed with premium shades of ACP or Glass or a combination or glass with digital printing to match the bungalow interior and exterior look.

## Premium

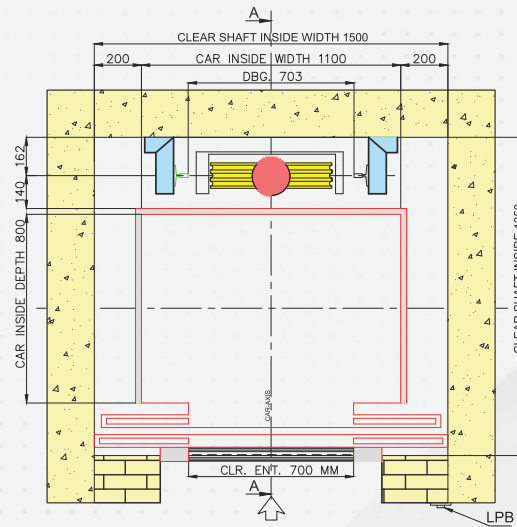

One of the most premium model with attractive range of customized unique glass work like brown, painted and fabricated glass for lift cabin which is specially designed for premium segment customer with fully automated full vision glass doors. For external Lift, premium modular structure is used with the fully glass enclosure which will give lavish look to your Bungalow view.
